

# PROFESSIONAL EDUCATION

---

Georgia Tech Professional Education (GTPE) is the global campus and lifetime education arm of Georgia Institute of Technology.

GTPE offers professional development courses, certificate programs, and master's degrees to career-focused adults in tech, business, and industry specific subject matter to meet the needs of working professionals and industry partners. Programs are available worldwide both online and on-site.

In addition to professional academic offerings, the division administers K-12 outreach, professional certificates for active-duty service members and veterans, and an English as a Second Language program. We also offer comprehensive virtual, hybrid, and in-person professional meeting and event experiences.

On an annual basis, GTPE serves and supports more than 193,000 learners – the “hidden students” who don't live on campus but outnumber those who are physically here.

While GTPE is located at the Georgia Tech Global Learning Center (GLC) and the O'Keefe building in Atlanta, and at Georgia Tech-Savannah, our programs are available worldwide through online and hybrid formats, as well as in-person at corporate, government, and third-party locations.
