UNDERGRADUATE STUDY IN MATHEMATICS

The School of Mathematics offers a Bachelor of Science degree in Mathematics. Students have the option of completing the BS in Mathematics or completing the BS in Mathematics with a concentration in one of five areas:

- Applied Mathematics
- Discrete Mathematics
- Probability and Statistics
- Pure Mathematics.
- Data Science

The BS in Mathematics program emphasizes the study of core mathematics, as well as its application. It provides an excellent preparation for employment, as well as for graduate study in mathematics and related fields.
