

# MINOR IN LINGUISTICS

The Schools of Modern Languages, Psychology, and Computer Science offer an interdisciplinary minor in Linguistics, housed in the School of Modern Languages. While the students are advised by the Linguistics advisor (Modern Languages), the is delivered by faculty in Modern Languages, Psychology and Computer Science. The minor connects studies of the physical structures and mental processes involved in human language; the psychological, neurobiological, and social/ societal factors that enable humans to acquire, use, comprehend and produce language; and the application of computer science to the analysis and synthesis of language and speech. This minor is designed for undergraduates who will enter a wide range of careers, especially, language education, educational design, programming, human/computer interaction, etc.

Students wishing to pursue this minor should declare the minor by filling out the minor change form (<http://www.registrar.gatech.edu/students/formlanding/changeminor.php>) with the Student Advisor in Modern Languages.
