MINOR IN SPORTS, SOCIETY, AND TECHNOLOGY

For students in other majors interested in broadening their educational experience at Georgia Tech, the School of History and Sociology offers minors in history; sociology; Health, Medicine, and Society; Science, Technology, and Society; Sports, Society, and Technology; and participates in the interdisciplinary minors in Social Justice; and Women, Science, and Technology.

The Sports, Society, and Technology minor draws upon the interdisciplinary field of sports studies and is appealing to undergraduate students interested in the critical, holistic study of sport. The minor includes coursework from such diverse areas as architecture, international studies, applied physiology, business law, economics, history, and sociology. Examples of topics covered in the minor include:

- the legal and economic impact of sports;
- the historical and contemporary relationships between technology, race, nationality, gender and sports;
- sports science, technology and performance; and
- public policy and global sports infrastructure.

Since this curriculum focuses on the critical study of sports, it is particularly attractive for those interested in acquiring the breadth of knowledge and critical thinking skills that numerous employers say they are seeking in college graduates. SST coursework also helps students become innovative leaders in our local and global communities. Therefore SST coursework is good preparation for graduate school, community service or a broad array of careers including those in the sports and health industries, education, government and law.

Minor Program of Study & Guidelines (http://www.catalog.gatech.edu/academics/minors)

Program of Study

A multidisciplinary minor may contain courses in a student’s major field of study. A maximum of 6 credit hours of such courses may be used to satisfy the course requirements for the minor, provided these courses are not also used to satisfy any course requirement in the student’s major degree program.

In addition to the courses listed here, there are other courses offered less regularly—for example, Special Topics and Undergraduate Research classes—that may count toward the minor. The SST adviser should be consulted for guidance. Three credit hours taken outside of SST courses may be counted toward the minor, with the approval of the SST minor advisor.

Total Credit Hours 15

1 At least 9 credit hours must be at the 3000 level or above.
2 Required prerequisite is ECON 2106.
3 Required prerequisite is MGT 2106, with a grade of C or higher.

• All courses counting toward the minor must be taken on a letter-grade basis and must be completed with a grade of C (2.00) or better.
• A maximum of 6 credit hours of Special Topics courses may be included in a minor program or the student may complete 3 credit hours of Special Topics and 3 credit hours of either Special Problems or Undergraduate Research. Students may not use 6 credit hours of either Special Problems or Undergraduate Research for a minor.
• A maximum of 3 credit hours of transfer credit may be used to satisfy the course requirements for a minor. This includes courses taken at another institution or credit earned through the AP or IB program, assuming the scores meet Georgia Tech minimum standards.
• It is the major advisor’s responsibility to verify that students are using only courses from the designated block(s) from the student’s major field of study that are allowed to satisfy a minor program, that they are not using any Core Area A-E courses (including humanities and social sciences), and that they are not using any courses for more than one minor or certificate. Any free elective course used to satisfy the course requirements of the student’s major degree program may also be used to satisfy the course requirements for a minor.
