

# CENTER FOR EDUCATION INTEGRATING SCIENCE, MATHEMATICS, AND COMPUTING (CEISM)

---

CEISM has been the primary connection point between Georgia Tech faculty and students and the pre-collegiate education community since 1991. CEISM provides inclusive and inspiring STEM/STEAM enrichment experiences in classroom and out-of-school settings. CEISM develops an array of extensive research and implementation programs focused on multiple dimensions of STEM educational reform. CEISM offers teacher professional development focused on innovative curricula and evidence-based practices in fields such as STEM with arts and music integration, computer science, robotics, invention, and entrepreneurship. These opportunities and initiatives are achieved through school and community outreach and local and sustainable partnerships that foster student success and workforce development. For more information about CEISM in Atlanta, visit [ceism.gatech.edu](http://ceism.gatech.edu), and in Savannah, visit [savannah.ceism.gatech.edu](http://savannah.ceism.gatech.edu).
