

GRADUATE INTERNSHIP PROGRAM

The Graduate Internship Program provides graduate students with the opportunity to work with industry and government leaders in their respective areas of study. Eligibility for the program is based on academic achievement at Georgia Tech. For students who are working on research, their master's and doctoral thesis-related work may be related to the internship work assignments, and can be jointly supervised by Georgia Tech faculty and company staff. There is no tuition associated with the Graduate Internship Program, nor are there any required fees. Students are provided full-time enrollment status through registration in an audit credit Graduate Internship course. This permits students to retain all privileges of full-time enrolled students while on work assignments.

For more information, visit the Georgia Tech Graduate Internship Program site.
