THE SAM NUNN SCHOOL OF INTERNATIONAL AFFAIRS

The Sam Nunn School of International Affairs draws on its unique setting at one of the world’s premier institutes of technology and the unparalleled integrity and insight of former Senator Sam Nunn. It delivers innovative programs and cutting-edge research by integrating technology and science with the study of international affairs.

At a time of rapid change, the School is dedicated to public outreach that provides a greater understanding of factors that shape the world in which we live and work. The School strives to connect learning and experience through its interdisciplinary degree programs, policy-relevant research with a strong theoretical foundation, and regular interaction with practitioners. Over the last several years, the School has introduced a series of one-year MS degrees, inter-disciplinary graduate certificates (with Aerospace Engineering, Nuclear Engineering, School of City and Regional Planning, and Economics), and undergraduate minor in Global Develop to complement long-standing BS, MS, and PhD degree programs in International Affairs.

Founded in 1990, the School enrolls undergraduate students in three bachelor’s degrees, three minors, and five certificate programs. It also matriculates graduate students in its three master’s degrees, doctoral program, and three certificates. What makes the Nunn School unique is that it awards bachelor of science and master of science degrees, which mean our courses integrates topics in science and technology with international affairs.

Twenty-three full-time faculty members, eight distinguished professors of the practice, five lecturers, and one postdoctoral fellow teach and research a broad array of topics. Several Nunn School faculty are jointly appointed to the College of Computing (including new School of Cybersecurity & Privacy) and School of City and Regional Planning, and there are courtesy faculty appointments from the Schools of Civil and Mechanical Engineering. School faculty also direct Global Social Change Entrepreneurship VIPs, Military Fellows Program, and the Freshman Program at GT-Europe.

Faculty research addresses the drivers and the consequences of global challenges and opportunities using qualitative/quantitative methods, visual analytical tools, and regional perspectives. Core areas of synergy between faculty research, teaching, and practical outreach include:

- International Security: exploring the drivers and consequences of emerging technologies for issues related to conflict, cooperation, and governance in international security
- Global Development: assessing topics in sustainability, environmental issues, global energy, political economy, and international economic governance/regulation
- International Affairs, Science, and Technology: examining space, national and strategic/military innovation, comparative economic competitiveness and regulation, international financial technology and institutions, and assorted topics related to global governance and ethics.

The School offers overseas programs in Europe, Asia, and Latin America and a variety of outreach programs, including the Sam Nunn Bank of America Policy Forum. The School also houses the Center for International Strategy, Technology, and Policy and Center for European Studies—two policy-relevant, action-oriented research centers.

Minors

- Minor in International Affairs
- Minor in Global Development
- Minor in European Studies

Bachelor’s Degrees

- Bachelor of Science in Economics and International Affairs
- Bachelor of Science in International Affairs
- Bachelor of Science in International Affairs and Modern Language

Master’s Degree

- Master of Science in International Affairs
- Master of Science in International Security
- Master of Science in International Affairs, Science, and Technology

Doctoral Degree

- Doctor of Philosophy with a Major in International Affairs, Science, and Technology

INTA 1002. Effective Study Abroad. 1 Credit Hour.
Introduces essential background information concerning countries, concepts, and what to do in order to gain maximum benefit from participation in school-sponsored study abroad programs.

INTA 1050. The World Today. 3 Credit Hours.
Introduction to current issues of politics, geography, and history around the globe, using a wide variety of media and sources.

INTA 1110. Introduction to International Relations. 3 Credit Hours.
An introduction to the major principles, concepts, actors, and theories of the international system and their application to current issues in world affairs.

INTA 1200. American Government in Comparative Perspective. 3 Credit Hours.
Examines American government in relation to other political and economic systems in countries around the world. Includes study of the Constitution of Georgia. Credit not allowed for both POL 1101 and INTA 1200.

INTA 1XXX. International Affairs Elective. 1-21 Credit Hours.

INTA 2001. Careers in International Affairs. 1 Credit Hour.
Reinforces career development and planning process for international affairs majors. Includes facilitation of decision-making skills, job search strategies, self-assessment, and overview from industry speakers. Credit not allowed for both INTA 2001 and INTA 1001.

INTA 2010. Empirical Methods. 3 Credit Hours.
Develops skills in research design, model building, and hypothesis construction. Provides experience in using computer software programs to perform statistical tests including t-tests, chi-square, and regression.

INTA 2030. Ethics in International Affairs. 3 Credit Hours.
Surveys the main traditions and theories of international ethics with a focus on intervention and the use of force, human rights, self-determination, and global distributive justice.
INTA 2040. Science, Technology, and International Affairs. 3 Credit Hours.
An overview of science and technology as a determinant in the
development and functioning of states and societies worldwide and the
international context for the development of science and technology.

INTA 2042. Introduction to Global WMD Issues. 3 Credit Hours.
This course will explore the challenges, history, and major theoretical
frameworks relating to weapons of mass destruction (WMD).

INTA 2050. Introduction to Global Development. 3 Credit Hours.
Mainstream and critical approaches to development, the role of diverse
institutions and projects, and implications for sustainability in the
countries of the global south.

INTA 2100. Theoretical Approaches to Great Power Relations. 3 Credit Hours.
Juxtaposes competing explanations for the patterns of conflict and
cooperation among nations, illustrated by relations among the great
powers of Europe and Asia during the past two centuries.

INTA 2120. Introduction to International Security. 3 Credit Hours.
Introduction to the role of theory and provide an understanding of the
significance of various issues in international security.

INTA 2210. Comparative Political Philosophies and Ideologies. 3 Credit Hours.
Explores political ideologies and philosophies, including theories of
democracy, capitalism, and socialism, as well as rival views of the “good
society” in comparative and historical perspective.

INTA 2220. Government and Politics of Western Europe. 3 Credit Hours.
A comparative analysis of the politics and major institutions of the
countries of contemporary Western Europe.

INTA 2221. Politics of the European Union. 3 Credit Hours.
Introduction and overview of the history and politics of the European
Union from its inception to the new era of development under the 2009
Lisbon Treaty.

INTA 2230. Government and Politics of Asia. 3 Credit Hours.
An introduction to the major issues and aspects of the politics, societies,
and cultures of East Asia, and the changing role of the region in
international affairs.

INTA 2241. Government, Politics and Society of Latin America. 3 Credit Hours.
Introduction to the study of historical forces, cultural production, identity,
political development and contemporary issues in Latin America.

INTA 2260. Government, Politics and Society of the Middle East. 3 Credit Hours.
Introduction to the study and analysis of contemporary Middle East
politics with an emphasis on the Arab states.

INTA 2694. Intern Assistantship. 21 Credit Hours.
Undergraduate Internship for International Affairs for pay.

INTA 2695. Undergraduate Internship. 1-21 Credit Hours.
Undergraduate Internship for International Affairs for academic credit.

INTA 2698. Undergraduate Research Assistantship. 1-12 Credit Hours.
Independent research conducted under the guidance of a faculty member.

INTA 2699. Undergraduate Research. 1-12 Credit Hours.
Independent research conducted under the guidance of a faculty member.

INTA 2803. Special Topics. 3 Credit Hours.
Topics of current interest in International Affairs.

INTA 2813. Special Topics. 3 Credit Hours.
Topics of current interest in International Affairs.

INTA 2823. Special Topics. 3 Credit Hours.
Topics of current interest in International Affairs.

INTA 2833. Special Topics. 3 Credit Hours.
Topics of current interest in International Affairs.

INTA 2901. Special Problems. 1-21 Credit Hours.
Independent study with a faculty member.

INTA 2902. Special Problems. 1-21 Credit Hours.
Independent study with a faculty member.

INTA 2903. Special Problems. 1-21 Credit Hours.
Independent study with a faculty member.

INTA 2XXX. International Affairs Elective. 1-21 Credit Hours.
INTA 3103. The Challenge of Terrorism. 3 Credit Hours.
Examines the contexts that nurture domestic and international terrorism, the variety of terrorist organizations, and alternative approaches to combating the problem.

INTA 3104. International Negotiations. 3 Credit Hours.
Examines the theories of bargaining and negotiation, with an emphasis on explaining success and failure in U.S. foreign policy and national security negotiations.

INTA 3110. U.S. Foreign Policy. 3 Credit Hours.
Analyzes the formulation and implementation of America's foreign policy from 1914 to the present, stressing economic, political, and strategic factors.

INTA 3111. U.S. Defense Policy. 3 Credit Hours.
Examines contemporary American defense policy, including the formulation of strategy, the defense budget, force structure, and nontraditional uses of military force.

INTA 3120. European Security Issues. 3 Credit Hours.
Explores the contemporary European security environment, including threats, challenges, and various security architectures (e.g., NATO, the WEU, and the OSCE).

INTA 3121. Foreign Policies of Russia and Eurasia. 3 Credit Hours.
Examines the many dimensions of the foreign and security policies of Russia and the other new post-Soviet states of Russia and Eurasia.

INTA 3130. Foreign Policy of China. 3 Credit Hours.
Analyzes the major dimensions of the foreign policies of the People's Republic of China and the domestic and international influences shaping those policies.

INTA 3131. Pacific Security Issues. 3 Credit Hours.
Examines past, present, and future security concerns in the Pacific, including the Korean peninsula, Japanese defense, the emergence of China as a military power, and the forward basing of American troops and materiel.

INTA 3203. Comparative Politics. 3 Credit Hours.
Contrasts competing theoretical perspectives in the comparative analysis of political systems.

INTA 3220. Government and Politics of Germany. 3 Credit Hours.
Examines the government and politics of Germany with an in-depth focus on the post-1945 period. NOTE: When taught jointly with the School of Modern Languages, all lectures, assignments, and readings are in German.

INTA 3221. Post-Soviet Government and Politics. 3 Credit Hours.
Focuses on the challenge of building new social, political, and economic systems in Russia, but also considers some of the special problems confronting the other fourteen post-Soviet states.

INTA 3223. Transatlantic Relations. 3 Credit Hours.
Analysis of the different aspects of the relationship between the US and the EU and how it is characterized by cooperation, conflict and competition.

INTA 3230. Government and Politics of China. 3 Credit Hours.
Investigates the structure and institutions of political power as well as the patterns and features of political change in the contemporary People's Republic of China.

INTA 3231. Government and Politics of Japan. 3 Credit Hours.
Examines the main institutions, policies, and politics of contemporary Japan. Investigates the impact of social, cultural, and economic forces on Japan's government and politics.

INTA 3232. Sustainable Megaregion. 3 Credit Hours.
Explores the ways in which environmental, economic, social, and technological forces shape megaregion sustainability in through comparison with megaregions in countries around the world.

INTA 3240. Government and Politics of Africa. 3 Credit Hours.
A survey of the history, cultures, social systems, governments, economies, and international roles of Africa. Selected case studies of individual countries are presented.

INTA 3241. Latin American Politics. 3 Credit Hours.
Surveys the government and politics of Latin America. The course begins with an overview of the region's geography and history, and then explains why demographic government has had a tenuous existence in this area.

INTA 3242. Soccer and Global Politics. 3 Credit Hours.
An examination of regional and national identity, development, and politics through the history of soccer.

INTA 3243. US - Latin American Relations. 3 Credit Hours.
Study of government and non-governmental influences on policy and effectiveness of political, economic, and military instruments of power in Latin America.

INTA 3260. Middle East Relations. 3 Credit Hours.
Course will provide an in-depth understanding of the Arab-Israeli conflict using theories of international relations and comparative politics.

INTA 3301. International Political Economy. 3 Credit Hours.
Analyzes the relationship between political and economic issues in international affairs. Examines the interaction of states and markets in the context of trade, investment, and production.

INTA 3303. Political Economy of Development. 3 Credit Hours.
Surveys theories of economic development and political change, and examines a range of cases that include the European-American experience, the East Asian episode, and the transition from socialism.

INTA 3304. International Trade and Production. 3 Credit Hours.
Examines the political economy of international trade and the global production process with particular emphasis on conflict and cooperation in national competition for high-technology industries.

INTA 3321. Political Economy of European Integration. 3 Credit Hours.
Explores the processes and problems of political and economic integration in the European Union, the world's largest trading bloc.

INTA 3330. Political Economy of China. 3 Credit Hours.
Examines the centuries of stagnation and the recent rapid growth of the Chinese economy, and seeks to understand the current interaction between politics and economic development in the People's Republic of China.

INTA 3331. Political Economy of Japan. 3 Credit Hours.
Surveys the political foundations and economic achievements of modern Japan. Explores the interaction of domestic and international forces, and analyzes Japan's changing world role.

INTA 3373. Global Issues and Leadership. 3 Credit Hours.
Invited project based seminar. Uses global issues to explore diverse viewpoints, cultures and cognitive biases to develop leadership and presentation skills in small diverse groups.

INTA 3803. Special Topics. 3 Credit Hours.
Selected topics will vary from term to term.

INTA 3813. Special Topics. 3 Credit Hours.
Selected topics will vary from term to term.

INTA 3823. Special Topics. 3 Credit Hours.
Topics of current interest in International Affairs.
INTA 3833. Special Topics. 3 Credit Hours.
Topics of current interest in International Affairs.

INTA 3XXX. International Affairs Elective. 1-21 Credit Hours.

INTA 4007. Intelligence and International Security. 3 Credit Hours.
This course examines the history, nature and business of secret intelligence as a critical element of national and international security, with special emphasis given to its role in the global war on terror, and the relationship between the intelligence community and policy makers.

INTA 4011. Technology and Military Organization. 3 Credit Hours.
Addresses the impact of technological developments on the evolution of military organization and on international conflict from the Battle of Agincourt (1415) to the Gulf War (1991).

INTA 4014. Scenario Writing and Pathgaming. 3 Credit Hours.
Introduces students to the construction and presentation of formalized scenarios for international planning, and into the formation, implementation, and assessment of path games. Credit not allowed for both INTA 4014 and INTA 6014.

INTA 4016. Strategy and Arms Control. 3 Credit Hours.
Explores elements of military strategy and tactics, weapons proliferation, and arms control efforts.

INTA 4040. Environmental Politics. 3 Credit Hours.
Examines the interface between politics and the environment. Foci include sustainable development, the politics of the rain forest, ecotourism, and export agriculture and the environment.

INTA 4050. International Affairs and Technology Policy Making. 3 Credit Hours.
International policy issues in which science and technology figure prominently. Topics include: health, environment, information technologies, arms control and defense, critical infrastructure, transportation, and energy. Emphasis placed on policy analysis and formation.

INTA 4060. International Law. 3 Credit Hours.
Explores major issues, concepts and cases in public international law and their policy ramifications. Specific topics include human rights, armed conflict, crimes against humanity, and the environment.

INTA 4101. Politics of the Vietnam War. 3 Credit Hours.

INTA 4121. Seminar in Europe: European Security. 3 Credit Hours.
Examines the history, institutional structure, and functions, as well as current policy challenges facing NATO and other European security arrangements.

INTA 4230. Seminar in Europe: European Union. 3 Credit Hours.
Explores the history and processes of economic and political integration within the framework of the European Union.

INTA 4240. Argentine Politics, History, and Culture. 3 Credit Hours.
Survey of the politics, history, and culture of Argentina. Topics include Argentine economic and political failure, the politics of immigration, and the relationship between culture and development.

INTA 4241. Democracy in the Global South. 3 Credit Hours.
Assesses theories about democracy and explores their applicability in the Global South. Examines the concept of democracy and explores its causes and effects.

INTA 4330. Chinese Economic Reform. 3 Credit Hours.
Addresses the profound and consequential process of the Chinese economic reform that started at the end of the 1970s and has led to China’s rapid economic growth.

INTA 4331. Chinese Politics in Transition. 3 Credit Hours.
Investigates the organizational apparatus through which the Chinese Communist Party exercises leadership over politics and society, and the way in which reforms have changed those relationships.

INTA 4332. Chinese Institutions and Policy Process. 3 Credit Hours.
Supervised field research on the Chinese institutions and policy-making process especially in the areas of economic and social issues.

INTA 4333. Korean Security Policy. 3 Credit Hours.
An examination of the principal policy issues facing the United States with regard to the Korean Peninsula and the principal neighboring states, China and Japan.

INTA 4340. Latin American Regional Economic and Political Integration. 3 Credit Hours.
Examines institutional, interest group, international, and economic inputs and outputs of regional integration.

INTA 4500. Pro-Seminar in International Affairs. 3 Credit Hours.
Capstone experience in which students formulate strategies and policies to cope with international problems. Themes vary from seminar to seminar. Credit not allowed for both INTA 4500 and INTA 4400.

INTA 4694. Intern Assistantship. 1-21 Credit Hours.
Undergraduate Internship for International Affairs for pay.

INTA 4695. Undergraduate Internship. 1-21 Credit Hours.
Undergraduate Internship for International Affairs for academic credit.

INTA 4698. Undergraduate Research Assistantship. 1-12 Credit Hours.
Independent research conducted under the guidance of a faculty member.

INTA 4699. Undergraduate Research. 1-12 Credit Hours.
Independent research conducted under the guidance of a faculty member.

INTA 4740. Seminar in Political Economy. 3 Credit Hours.
Capstone experience in which students apply tools of political economy to international issues. Crosslisted with ECON 4740.

INTA 4741. Thesis in Political Economy. 3 Credit Hours.
Individual project applying the tools of political economy to international issues. Crosslisted with ECON 4741.

INTA 4742. Modeling, Simulation, and Military Gaming. 3 Credit Hours.
Creation and use of modeling and simulation tools to analyze and train students regarding strategic events in international relations. Credit not allowed for both INTA 4742 and INTA 6742 (or CSE 6742 or CS 4343).

INTA 4743. Japanese Society and Politics. 3 Credit Hours.

INTA 4744. Global Development Capstone. 3 Credit Hours.
Teams develop solutions to multidisciplinary problems selected from globalization, food security, infrastructure, health, water, sanitation, hygiene, ecosystem resilience, services, capacity building, and urbanization.

INTA 4745. Information and Communication Technologies and Global Development. 3 Credit Hours.
Focus on technology, design, adoption, and use as seen through the lens of global development.
INTA 4803. Special Topics. 3 Credit Hours.
Selected topics will vary from term to term.

INTA 4811. Special Topics. 1 Credit Hour.
Topics of interest not covered in the regular course offerings.

INTA 4812. Special Topics. 2 Credit Hours.
Topics of interest not covered in the regular course offerings.

INTA 4813. Special Topics. 3 Credit Hours.
Topics of interest not covered in the regular course offerings.

INTA 4814. Special Topics. 4 Credit Hours.
Topics of interest not covered in the regular course offerings.

INTA 4815. Special Topics. 5 Credit Hours.
Topics of interest not covered in the regular course offerings.

INTA 4823. Special Topics. 3 Credit Hours.
Selected topics will vary from term to term.

INTA 4833. Special Topics. 3 Credit Hours.
Selected topics will vary from term to term.

INTA 4901. Special Problems. 1-21 Credit Hours.
Independent study with a faculty member.

INTA 4902. Special Problems. 1-21 Credit Hours.
Independent study with a faculty member.

INTA 4903. Special Problems. 1-21 Credit Hours.
Independent study with a faculty member.

INTA 4XXX. International Affairs Elective. 1-21 Credit Hours.

INTA 6002. Strategic Decision Making. 3 Credit Hours.
Examines the dynamics of individual, group, organizational, cross-cultural, and international interaction.

INTA 6003. Empirical Research Methods. 3 Credit Hours.
This course introduces research methods in international affairs. It emphasizes writing research proposals, empirical techniques, gathering and assembling data, and methods for analyzing and reporting results.

INTA 6004. Modeling, Forecasting, and Decision Making. 3 Credit Hours.
This course introduces modeling and forecasting in strategic decision making, analysis of long-term developments, path gaming, formal analysis of games, and simulation.

INTA 6011. International Trade and Technology Transfer. 3 Credit Hours.
This course examines the relationship between international trade and technology transfer and their effect on national competitiveness, national security, and international cooperation and coercion.

INTA 6014. Scenario Writing and Path Gaming. 3 Credit Hours.
Introduces students to the construction and presentation of formalized scenarios for international planning, and into the formulation, implementation and assessment of path games. Credit not allowed for both INTA 6014 and INTA 4014.

INTA 6015. Technology and Military Organizations. 3 Credit Hours.
Examines changes in military technology, organization, and operations leading to new conceptions of the conduct of warfare as a result of revolutions in military affairs.

INTA 6016. Strategy and Arms Control. 3 Credit Hours.
Explores elements of military strategy and tactics, weapons proliferation, and arms control efforts.

INTA 6022. Ethics and International Affairs. 3 Credit Hours.
An overview of the main tradition and theories of international ethics applied to four major issues: intervention and the use of force; human rights; self-determination; and global distributive justice.

INTA 602. International Relations Theory. 3 Credit Hours.
This course provides an introduction to theoretical approaches to understanding international relations. The focus of the course is on system-level theories and sub-systematic-level theories.

INTA 6103. International Security. 3 Credit Hours.
Examines traditional and nontraditional issues in international security, including the uses of military force, military strategy, arms control, peacekeeping, the environment, and migration.

INTA 6105. International Institutional Design. 3 Credit Hours.
This course examines international institutions and their effect on foreign policy decision makers. Specific topics include: the theoretical study of cooperation; supranatural organizations and informal institutions.

INTA 6106. The State in International Affairs. 3 Credit Hours.
Explores various concepts of the state in international affairs as well as the concepts of sovereignty and revolution.

INTA 6111. U.S. Foreign and National Security Strategy. 3 Credit Hours.
This course focuses on the design and implementation of U.S. foreign policy and national strategy in the areas of arms control, the Third World, and economic policy.

INTA 6121. Seminar In Europe: European Security. 3 Credit Hours.
This course examines the history, institutional structure and functions, and current policy challenges facing the North Atlantic Treaty Organization (NATO) and other European security institutions.

INTA 6122. Science, Technology and National Security. 3 Credit Hours.
Topics in the study of the relationship between national security and the scientific-technological enterprise from diverse perspectives.

INTA 6131. Pacific Security Issues. 3 Credit Hours.
Examines past, present, and future security concerns in the Pacific, including the Korean peninsula, Japanese defense, the emergence of China as a military power, and the forward basing of American troops and material.

INTA 6202. Comparative Politics. 3 Credit Hours.
This course surveys the major political types of the late twentieth century world and explores their various development characteristics.

INTA 6203. Comparative Institutional Design. 3 Credit Hours.
This course examines the creation, maintenance, and evolution of political institutions, and the ways in which institutions affect policy choice.

INTA 6302. International Political Economy. 3 Credit Hours.
This course is an introduction to the politics of international economic relations. Major theoretical approaches are applied to international trade, international monetary relations, and global production in the modern era.

INTA 6306. Globalization. 3 Credit Hours.
This course surveys the major political types of the late twentieth century world and explores their various development characteristics.

INTA 6320. Seminar in Europe: European Union. 3 Credit Hours.
This course explores the history and processes of economic and political integration within the framework of the European Union.

INTA 6330. Political Economy of East Asia. 3 Credit Hours.
This course explores the politics of economic development in China, Japan, and Korea. Focal issues include: trade patterns, financial institutions, trade-bloc formation, industrial competitiveness, and the status of U.S.-East Asian economic relations.
INTA 6331. Chinese Political Economy. 3 Credit Hours.
This course examines the Chinese social and economic development from the seventh century to current day. Specific emphasis is placed on the political economic reforms of Deng Xiaoping and assessing the implications of continued Chinese modernization.

INTA 6450. Data Analytics and Security. 3 Credit Hours.
Explores use of big data techniques to problems at the national and international levels. Topics may include cybersecurity, surveillance, economic development, behavioral prediction and manipulation.

INTA 6704. Introduction to Global Development. 3 Credit Hours.
This course introduces students to the goals, theories and key institutional actors involved in the field of Global Development.

INTA 6720. Seminar: Politics Tech & Proliferation. 3 Credit Hours.
This seminar course is designed specifically to encourage new thinking and creative effort on nuclear deterrence and strategic stability for our global future.

INTA 6740. Innovation, the State and Industrial Development in International Perspective. 3 Credit Hours.
Research seminar exploring the role of the state in industrial development, innovation and business-government relations. Special attention given to science and technology policies and their influence in different international and industrial contexts. Crosslisted with PUBP 6740.

INTA 6742. Modeling, Simulation and Military Gaming. 3 Credit Hours.
Focuses on the creation and use of modeling and simulation tools to analyze and train students regarding strategic events in international relations. Credit not allowed for both INTA 6742 and CSE 6742 (or INTA 4742 or CS 4343).

INTA 6745. Information and Communication Technologies and Global Development. 3 Credit Hours.
Focus on technology design, adoption, and use as seen through the lens of global development.

INTA 6753. Comparative Science and Technology Policy. 3 Credit Hours.
Examination of the social, political, and cultural contexts of science and technology, and how they affect the research, development, and regulatory policies of nations. Crosslisted with PUBP 6753.

INTA 6XXX. Intl Affairs Elective. 1-21 Credit Hours.

INTA 7000. Master's Thesis. 1-21 Credit Hours.
Under the direct supervision of one or more faculty members, graduate students will complete an original research design and execute that study.

INTA 8000. Seminar in Science, Technology and International Affairs I. 3 Credit Hours.
Research course introducing engineers and scientists to issues in science and technology as related to international security policy and development.

INTA 8001. Seminar in Science, Technology and International Affairs II. 3 Credit Hours.
Research course introducing engineers and scientists to issues in science and technology as related to international security policy and development.

INTA 8010. International Affairs, Science and Technology Ph.D. Proseminar. 1 Credit Hour.
An overview of resources and practices of doctoral research in International Affairs, Science, and Technology. Meetings will consist of faculty guest lectures and talks from Library personnel and others.
