MASTER OF SCIENCE IN ARCHITECTURE

The School of Architecture’s Master of Science (M.S.) is a STEM-designated, non-professional degree program requiring a minimum of 30 semester hours of advanced study and is oriented toward advanced practice, scholarship, and research. Applicants may have previous degrees in architecture or other related fields. The program accepts students with a professional degree in a design or design-related field, as well as students with a baccalaureate degree in a non-design field who wish to pursue an area of study offered in the Master of Science in Architecture degree.

Concentrations:

1. Advanced Production
2. Building Information Systems
3. Design Computation
4. Health and Design
5. High Performance Buildings

Multidisciplinary studies are strongly encouraged in all of the master’s programs in architecture. These studies may be part of a formal dual degree program, including architecture and city and regional planning. Other multidisciplinary studies are possible within the College of Design, the Institute, or at other Atlanta area colleges and universities, such as Emory University and Georgia State University. Coursework outside the School of Architecture frequently includes city and regional planning, public policy, history, philosophy, real estate development, engineering, and studio art.

The deadline for applications is December 31st for all applicants for the following fall semester. Each applicant must have an outstanding undergraduate record and must submit a portfolio of creative work. The TOEFL is the only acceptable language test for admission to Georgia Tech. A score of 90 is required by Georgia Institute of Technology, with a minimum section score of 19 in each section of the test, however, the School of Architecture only accepts TOEFL scores near 100 for all foreign applicants. All applicants should be aware that each program in the School of Architecture has specific application requirements; therefore, all applicants should consult the relevant requirements for their chosen degree programs; by visiting the School of Architecture website or contacting an academic advisor.

For further details on the program, see www.arch.gatech.edu or contact an academic advisor in the School of Architecture.

The School of Architecture also offers a Master of Science in Urban Design (MSUD). For more information about this program, click here.
