BACHELOR OF SCIENCE IN CONSTRUCTION SCIENCE AND MANAGEMENT

The Bachelor of Science in Construction Science and Management gives students a complete view of the building life cycle, including design, construction and operation. Students learn technology-driven methods of construction management and critical leadership skills. The curriculum shows students how prefabrication, 3D printing, virtual and augmented reality, drones, and robotics can impact safety, profitability, and sustainability. It's the major for students who prefer the practical and tangible aspects of the built environment, incorporating perspectives of construction contractors, owners, and facility managers.
