

# MINOR IN COLLABORATIVE SOCIAL INNOVATION

The purpose of the proposed minor in **Collaborative Social Innovation** is to provide students with the skills and experiences to help improve the human condition expressed in practical, impactful challenge-focused activities through the cross-disciplinary approaches of:

1. Collaboration – Effective leadership and teamwork focused on enduring and learning from failure, managing risk, handling conflict, project management, and effective communication.
2. Social impact – Understanding of complex, transdisciplinary problems associated with a clear focus on improving the human condition and evaluating the effectiveness of such efforts
3. Innovation and design thinking – Designing and constructing novel, feasible solutions to address complex problems and ensuring that such solutions are sustainable
