# MINOR IN EARTH AND ATMOSPHERIC SCIENCES

The School of Earth and Atmospheric Sciences offers a minor with seven different tracks. These specific tracks are designed to give non-majors a background in the environmental and global change issues that face the world. This background both allows a broader exposure and gives a strategic background for many careers. The seven tracks are:

- · Climate Change
- · Earth System Physics
- · Environmental Chemistry
- · Environmental Science
- · Geophysics
- Meteorology
- · Ocean Sciences

Minor Program of Study & Guidelines

**EAS Minor Information** 

## **Program of Study - Climate Change Track**

The EAS minor with a Climate Change track is for students in majors outside of EAS who have an interest in understanding Climate Change and Issues surrounding it. Prerequisites required for some of the classes listed below. This minor must comprise at least 15 credit hours, of which at least 9 credit hours are upper-division coursework (numbered 3000 or above).

Code	Title	Credit Hours
Required Co	urses	
EAS 2750	Physics of the Weather	3
EAS 4410	Climate and Global Change	3
Electives		
Select three electives with a minimum of 3 credit hours from each of the following areas:		9
EAS Elect	EAS Electives	
Electives		
<b>Total Credit</b>	Hours	15

#### **EAS Electives**

Code	Title	Credit Hours
EAS 3110	Energy, Environment, and Society	3
EAS 3620	Geochemistry	4
EAS 4350	Paleoclimatology and Paleoceanography	3
EAS 4655	Atmospheric Dynamics	3
EAS 4656	Atmospheric Dynamics Practicum	1
EAS 4670	Atmospheric Dynamics II	3
EAS 4699	Undergraduate Research <sup>1</sup>	3
EAS 4740	Atmospheric Chemistry Laboratory	3

A maximum of 3 credit hours of EAS 4699 may be included in the EAS minor program.

### **Approved Electives**

Code	Title	Credit Hours
ECON 2101	The Global Economy	3
ECON 4440	Economics of Natural Resources and the Environment	3
PUBP 3315	Environmental Policy and Politics	3

### **Program of Study - Earth System Physics**

The EAS minor with an Earth System Physics track is for students in majors outside of EAS interested in applying physical and mathematical principles to environmental problems. Prerequisites required for some of the classes listed below. This minor must comprise at least 15 semester hours, of which at least 9 semester hours are upper-division coursework (numbered 3000 or above).

Code	Title	Credit Hours
Required Cou	rses	
EAS 3610	Introduction to Geophysics	3
EAS 4655	Atmospheric Dynamics	3
Electives		
Select three o	f the following:	9
EAS 2750	Physics of the Weather	
EAS 3603	Thermodynamics of Earth Systems	
EAS 4312	Geodynamics	
EAS 4331	Physical Volcanology	
EAS 4360	Space Physics and Space Instrumentation	
EAS 4370	Physics of Planets	
EAS 4410	Climate and Global Change	
EAS 4450	Synoptic Meteorology	
EAS 4470	Large-scale Atmospheric Circulations	
EAS 4699	Undergraduate Research <sup>1</sup>	

A maximum of 3 credit hours of EAS 4699 may be included in the EAS minor program.

# Program of Study - Environmental Chemistry

**Total Credit Hours** 

The EAS minor with an Environmental Chemistry track is for students in majors outside of EAS that seek to understand and address environmental problems within the context of chemical systems. Prerequisites required for some of the classes listed below. This minor must comprise at least 15 credit hours, of which at least 9 credit hours are upper-division coursework (numbered 3000 or above).

Code	Title	Credit Hours
Required Co	ourses	
EAS 3620	Geochemistry	4
EAS 4740	Atmospheric Chemistry Laboratory	3
Electives		
Select 8 cre	8	
EAS 311	0 Energy, Environment, and Society	

15

EAS 4420	Environmental Field Methods
EAS 4602	Biogeochemical Cycles
EAS 4610	Earth System Modeling
EAS 4699	Undergraduate Research <sup>1</sup>
EAS 4795	Groundwater Hydrology

**Total Credit Hours** 15

### **Program of Study - Environmental** Science

The EAS minor with an Environmental Science track is for students in majors outside of EAS who have an interest in understanding the Environment and Issues surrounding it. Prerequisites required for some of the classes listed below. This minor must comprise at least 15 credit hours, of which at least 9 credit hours are upper-division coursework (numbered 3000 or above).

Code	Title	Credit Hours
Required Cou	irse	
EAS 1600	Introduction to Environmental Science	4
or EAS 160	01Habitable Planet	
Electives		
Select 11 cred	dit hours from the following:	11
EAS 2600	Earth Processes	
EAS 2750	Physics of the Weather	
EAS 3110	Energy, Environment, and Society	
EAS 3620	Geochemistry	
EAS 4410	Climate and Global Change	
EAS 4420	Environmental Field Methods	
EAS 4300	Introduction to Physical and Chemical Oceanography	
EAS 4350	Paleoclimatology and Paleoceanography	
EAS 4699	Undergraduate Research <sup>1</sup>	
EAS 4740	Atmospheric Chemistry Laboratory	

A maximum of 3 credit hours of EAS 4699 may be included in the EAS minor program.

### **Program of Study - Geophysics**

**Total Credit Hours** 

The EAS minor with a Geophysics track is for students in majors outside of EAS majoring in science and engineering. Prerequisites required for some of the classes listed below. This minor must comprise at least 15 credit hours, of which at least 9 credit hours are upper-division coursework (numbered 3000 or above).

Code	Title	Credit Hours
Required Co	urses	
EAS 2600	Earth Processes	4
EAS 3610	Introduction to Geophysics	3
Electives		

Select 8 credi	it hours from the following:	8
EAS 4312	Geodynamics	
EAS 4314	Seismology	
EAS 4331	Physical Volcanology	
EAS 4360	Space Physics and Space Instrumentation	
EAS 4370	Physics of Planets	
EAS 4699	Undergraduate Research <sup>1</sup>	
EAS 4795	Groundwater Hydrology	
Total Credit Hours		15

A maximum of 3 credit hours of EAS 4699 may be included in the EAS minor program.

### **Program of Study - Meteorology**

15

The EAS minor with a Meteorology track is for students in majors outside of EAS majoring in science and engineering. Prerequisites required for some of the classes listed below. This minor must comprise at least 15 credit hours, of which at least 9 credit hours are upper-division coursework (numbered 3000 or above).

Code	Title	Credit Hours
Required Cou	rses	
EAS 2551	Introduction to Meteorological Analysis	1
EAS 2750	Physics of the Weather	3
EAS 4655	Atmospheric Dynamics	3
Electives		
Select 8 credi	t hours from the following:	8
EAS 3603	Thermodynamics of Earth Systems	
EAS 4410	Climate and Global Change	
EAS 4450	Synoptic Meteorology	
EAS 4460	Satellite and Radar Meteorology	
EAS 4470	Large-scale Atmospheric Circulations	
EAS 4480	Environmental Data Analysis	
EAS 4610	Earth System Modeling	
EAS 4656	Atmospheric Dynamics Practicum	
EAS 4670	Atmospheric Dynamics II	
EAS 4699	Undergraduate Research <sup>1</sup>	
Total Credit H	lours	15

A maximum of 3 credit hours of EAS 4699 may be included in the EAS minor program.

### **Program of Study - Ocean Sciences**

The EAS minor with an Ocean Sciences track is for students in majors outside of EAS majoring in Biology, Civil and Environmental Engineering, Chemistry and Biochemistry, and Chemical and Biomolecular Engineering. Prerequisites required for some of the classes listed below. This minor must comprise at least 15 credit hours, of which at least 9 credit hours are upper-division coursework (numbered 3000 or above).

Code	Title	Credit Hours
Required Cour	rses	
EAS 4300	Introduction to Physical and Chemical Oceanography	3

A maximum of 3 credit hours of EAS 4699 may be included in the EAS minor program.

Select one of	the following:	4
EAS 1600	Introduction to Environmental Science	
EAS 1601	Habitable Planet	
EAS 2600	Earth Processes	
Electives		
Select 8 credi	t hours from the following:	8
EAS 3620	Geochemistry	
EAS 4350	Paleoclimatology and Paleoceanography	
EAS 4410	Climate and Global Change	
EAS 4420	Environmental Field Methods	
EAS 4480	Environmental Data Analysis	
EAS 4610	Earth System Modeling	
EAS 4655	Atmospheric Dynamics	
EAS 4699	Undergraduate Research <sup>1</sup>	
BIOL 4221	Biological Oceanography	
BIOL 4417	Marine Ecology	

A maximum of 3 credit hours of EAS 4699 may be included in the EAS minor program.

**Total Credit Hours** 

1. All courses counting toward the minor must be taken on a lettergrade basis and must be completed with a grade of C (2.00) or better.

15

- A maximum of 3 credit hours of transfer credit may be used to satisfy
  the course requirements for a minor. This includes courses taken at
  another institution or credit earned through the AP or IB program,
  assuming the scores meet Georgia Tech minimum standards.
- 3. It is the major advisor's responsibility to verify that students are using only courses from the designated block(s) from the student's major field of study that are allowed to satisfy a minor program, that they are not using any Core Area A-E courses (including humanities and social sciences), and that they are not using any courses for more than one minor or certificate. Any free elective course used to satisfy the course requirements of the student's major degree program may also be used to satisfy the course requirements for a minor.
