

MASTER OF SCIENCE IN PUBLIC POLICY

The Master of Science in Public Policy is designed for students with strong analytical backgrounds, such as those received in engineering, natural science, or an analytically oriented social science or humanities curriculum. Graduate studies in public policy focus on areas in which either the consequences of scientific and technological activity have significant public policy implications, or technical and scientific information is a significant input to the policy-making process. Current areas of specialization for the School include science and technology policy, environmental and energy policy, information and telecommunication policy, and regional economic development policy.

PUBP MS Information

The MS in Public Policy requires forty-six credit hours of study, including either:

1. three credit hours devoted to producing a professional policy research paper or team research project or
2. nine credit hours for a thesis.

In general, it is expected that students planning to enter employment upon completing the degree will choose the paper or project option, while students planning to continue their graduate work will choose the thesis option.

The program requires a twenty-five-credit-hour core curriculum consisting of five substantive elements:

1. policy and organizational analysis;
2. ethics, philosophy, and public policy;
3. economics and public finance;
4. methods of analysis, including quantitative analysis and research design; and
5. a capstone course in public policy analysis.

In addition, there is a required one-credit hour introductory graduate seminar in public policy. Based on prior coursework or a test-out exam, students may request up to 6 credit hours of exemptions from core courses. In individual cases, students may be required to take pre-core preparatory courses to be ready for graduate studies in particular methodological or analytical areas.

Code	Title	Credit Hours
Core Courses		
PUBP 6001	Introduction to Public Policy	1
PUBP 6010	Ethics, Epistemology, and Public Policy	3
PUBP 6012	Fundamentals of Policy Processes	3
PUBP 6112	Research Design in Policy Science	3
PUBP 6114	Applied Policy Methods and Data Analysis	3
PUBP 6116	Microeconomics for Policy Analysis	3
PUBP 6118	Public Finance Policy	3
PUBP 6201	Public Policy Analysis	3
Select one of the following:		3
	PUBP 6014 Organization Theory	

PUBP 6017 Public Management	
PUBP 6018 Policy Implementation and Administration	
Total Credit Hours	25

Students must achieve a grade of B or higher in all core courses. In addition to elective courses in the School of Public Policy, students may develop their own programs of study by taking courses in other Georgia Tech schools, including those in the Ivan Allen College and the Colleges of Architecture, Management, Sciences, and Engineering. A summer internship, work experience, or co-op assignment between the first and second years offers students insight into a research or professional setting related to their career interests.

For the MSPP, students are encouraged to pursue one or more concentrations. A concentration consists of at least three 3-credit hour courses, of which at least one is the School of Public Policy. Students can pursue concentrations within groups already developed by the faculty (see above). Or, students can pursue an individualized concentration, with the written approval of the proposed concentration program of study by their advisor.

BS/MS Public Policy

The School of Public Policy offers a BS/MS program for students enrolled in the undergraduate program who demonstrate an interest in and ability for additional education beyond the BS degree.

Students in the BS/MS program will remain undergraduates until they meet requirements for the undergraduate degree, at which point they will receive their BS degree and be changed to graduate status. Students will be eligible to apply for the program after completion of 30 semester credit hours at Georgia Tech (i.e., at the end of their first year), and if they show appropriate progress in their degree program thereafter. Any student in good standing in the BS PP program is eligible to apply to the program. Admissions decisions will be based on GPA and judgments of the faculty who have served as advisors or instructors. Continuation in the program will require the student to maintain a GPA of 3.0 or higher in public policy courses. The program will not penalize students who opt out after the bachelor's degree. Students participating in this program will be eligible for the six semester credit-hour Graduate Course Option, which allows students completing both the bachelor's and master's in the same discipline to use up to 6 credit hours of graduate-level coursework in the major discipline for both degrees.

The graduate-level credits required in the BS/MS Program are usually as follows:

Code	Title	Credit Hours
Core		22
Electives		12
Capstone/Research Paper		3
Total Credit Hours		37

Requirements

Code	Title	Credit Hours
Core Courses		
PUBP 6001	Introduction to Public Policy	1
PUBP 6010	Ethics, Epistemology, and Public Policy	3
PUBP 6112	Research Design in Policy Science ¹	3

PUBP 6114	Applied Policy Methods and Data Analysis	3
PUBP 6116	Microeconomics for Policy Analysis	3
PUBP 6118	Public Finance Policy	3
PUBP 6201	Public Policy Analysis	3
Select one of the following:		3
PUBP 6014 Organization Theory		
PUBP 6017 Public Management		
PUBP 6018 Policy Implementation and Administration		
Electives		
Electives		12
Concentration		
Concentration ²		6
Capstone/Research Paper		
PUBP 6801	Research Paper	3
Total Credit Hours		43

¹ This course should be taken as an undergraduate instead of PUBP 3130 and will count for both programs

² Students are required to develop, in consultation with their advisor, a six credit hour concentration in an area or specialty relevant to public policy and management (e.g. environmental policy, science and technology policy, urban policy, economic development, information and communications policy, policy evaluation, public management).

Contact the BS PP program director for further information.

BS/MS Information

Master of City and Regional Planning and Master of Science in Public Policy

The degree programs in Public Policy and City and Regional Planning prepares students for policy analysis and planning work at the national, state, and local levels. Graduates work in public, private, and non-profit settings building on the complementary perspectives and skills of the two professions.

In addition to providing interdisciplinary professional training, the dual degree also provides the opportunity to step toward Ph.D. programs in either Public Policy or Planning with an emphasis on Urban, Environmental, or Economic Development Policy.

All students must complete a minimum combined requirement of 75 credit hours for the dual degree program. Students receive both degrees.
